

F Y I

As a part of the Quality Control Measures of Our Kids Pediatrics the staff is regularly tested every 3 months for COVID-19. These are **some** of the measures that we have taken to provide the safest environment possible for our most vulnerable patient population.

During this cycle of testing a member of our indirect patient care team tested positive. In assurance to our families the office will close to direct patient care while it is being deeply sanitized by a commercial cleaning company. The office will revert to E-visits only until this process is completed.

Please remember that these safety measures are in place to protect your families.

**ALL STAFF MEMBERS ARE REQUIRED TO WEAR PPE
AROUND PATIENTS AND THEIR FAMILIES AT ALL
TIMES.**

Dr. Reese and Staff
